

Fall SUN Virtual Programming

SUN (Schools Uniting Neighborhoods), is our extended day program where students can find extra enrichment activities and academic support. **This Fall, in a collaboration between Floyd Light Middle School and Ron Russell Middle School**, we will provide virtual programming for 6 weeks. Programming will run **Monday, Oct 19th - Thursday, Dec 3rd**. This is an opportunity for students to socialize and participate in virtual activities with other classmates. If you are interested in participating, we ask you to join our Google Classroom. Once you have joined, each site will connect with families individually and provide additional information regarding virtual SUN. **SUN Google Classroom Code: mvpalmv**
